

Adam Borowski - web developer

website adamboro.com
email adam@adamboro.com
github github.com/adekbadek
linkedin linkedin.com/in/adamboro

skills

professional

JavaScript (ES6+) react
redux webpack
CSS/Sass/RWD HTML
TDD (jest) git

fluent enough

node express.js WordPress
bash Docker Flow
REST APIs Adobe Photoshop
Sketch jquery

hobbyist

Electron Ruby
Ruby on Rails Unity Elm
C# Arduino

experience

Participant @ Recurse Center (08-09.2016)

The Recurse Center is a *self-directed, community-driven educational retreat for programmers in New York City*. During my batch, I've developed a spaced-repetitions webapp, an [online pong game](#), [dabbled in cryptography](#), and learned a lot about functional programming.

Front-End Developer @ DaftCode (12.2015-04.2018)

Developed landing pages for products (with ruby Middleman framework), [aproject management webapp](#), a template for all new frontend projects built on top of [next.js](#), and several internal apps and microservices built on Node backends.

I mostly used React and Redux, but also helped with server-side ruby (Ruby on Rails) code when it was needed.

Freelance web designer and developer

(2014+)

Developed WordPress sites, ads, and a [webapp for creating embeddable online quizzes](#).

Freelance graphic designer

(2013-2014)

Created flyers and brochures, as well as posters for a film distribution company.

languages

English - fluent

French - conversational

German - beginner

Polish - native speaker

education

Bachelor of Art in Media Arts

Dept.

@ Academy of Fine Arts in Warsaw(2011-2014)

etc

Apart from web development, I'm interested in cryptography, functional programming, and history.
